Dual-Enrolled Students

Dual-enrolled students are those who have not graduated from high school, have been accepted into the Dual-Enrollment program, and who are simultaneously receiving college and high school credit. Dual-enrolled students may be members of a class taught in a high school in the service district or may be enrolled in a course on a Valencia campus with the approval of the Dual-Enrollment Office. Dual-enrolled students are either shown as FTAV (First-Time-at-Valencia) or Continuing Dual-Enrolled, signifying that the student is still enrolled in high school, but has completed a dual-enrolled course in a previous semester.

Remediation Report (Mandate Rates)

When previous year high school graduates apply for admission as degree seekers, they take Florida's Postsecondary Education Readiness Test (P.E.R.T.) required by the State of Florida, or they present an ACT or SAT score. These test scores place the student into either developmental education or college-level courses in English, reading, or mathematics. The developmental education course may be at the first or second level; generally the first level is for up to ninth grade work, while the second level is for tenth to twelfth grade work. Remediation rates are computed for previous year high school grads (PYHSGs) who are first-time-in-college degree seekers, including students who were dual enrolled prior to their high school graduation. Placement levels for previous year high school graduates from the service district are shown below.

College-Ready Students (No Mandates)

One measure of college readiness is when the student is exempt from taking developmental education courses by virtue of scoring above certain scores on the ACT, the SAT, or Florida's Postsecondary Education Readiness Test (P.E.R.T.). The number of students scoring above the cut scores for English, reading, and mathematics is shown below. The following table counts all previous year high school graduates (PYHSGs) enrolled in Fall Term 201210 (Fall 2011) regardless of whether the fall term was their first term of enrollment.

Career Pathways (formerly Tech Prep)

Students begin Career Pathways in high school focusing on higher academics and technical skills, then link their high school studies with at least two years at an Orange or Osceola county technical school or Valencia College. This can lead to a two-year certificate, associate's degree, or a four-year college degree.

After taking designated technical courses at their high schools, Career Pathways students participate in an assessment and are eligible to receive credit when they enroll at Valencia. By earning college credit while in high school, students make a smooth transition between high school and college by not duplicating coursework and save time and tuition/book money. The number of Career Pathways students from Orange and Osceola County high schools is shown below.
