

# First 30 | East Campus

Science, Technology, Engineering & Mathematics Meta Majors

## Overview

At Valencia College, we believe that every student should make personal connections with staff, with faculty and with other students very early in his or her experience. The **First 30** model offers students a clear direction and a plan to graduate, as soon as possible in their college career.

## Benefits

- Scholarship to cover summer 2019 tuition
- Guaranteed courses needed for the STEM Meta Major
- Pre-registered in 31 college-level credits throughout the first three terms
- Community-based learning and civic engagement experiences infused throughout the curriculum
- Cross-disciplinary Integration of curriculum that provides real-world application of content and a collective effort of understanding

## Schedule

In the **First 30**, learning community courses are paired together and offered in a block schedule format. The same cohort of students take four classes together in the fall and spring terms and two classes together in the summer term. Professors teach as a team, using integrated lessons. Please refer to the back of the flyer for the schedule of courses.

## Requirements

- Enroll with no previous college credits
- Commit to taking all courses during the fall 2018, spring 2019 and summer 2019
- Complete a **First 30** application, available at [valenciacollege.edu/linc/first30.cfm](http://valenciacollege.edu/linc/first30.cfm)
- Attend the **First 30** orientation, scheduled for **Friday, August 24<sup>th</sup>**
