This form provides a documentation template for annual Departmental Action Plans designed to describe unit outcomes that contribute to the College Strategic Plan and/or improve the educational programs and processes of Student Affairs at Valencia. Each Student Affairs Department will develop at least one department action plan annually. Initial information and projections describe the PLANNING PHASE of the process. At the conclusion of the project/activity time frame initial information and projections will be updated by completing an EVALUATION PHASE including modifications, outputs and outcomes. Both planning and evaluation information will be organized according to parallel criteria including: (1) a formal goal statement, (2) outcome measures, (3) collaboration with stakeholders, (4) evaluation methods and (5) use of results for improvement of unit performance in meeting established outcomes. The overall process will effectively review and document specific measures of educational effectiveness.

1. **Goal**-principal purpose and objectives of plan  

**Outcome Measures**-how plan will be reviewed and measured outcomes

1. Determine information collected on Banner forms currently used by Office for Students with Disabilities staff.  
2. Review the Banner form SGADISA to determine what information would be transferred to new form and what information is not needed.  
3. Integrate SGADISA information into SZROSDN (print Notification to Instructor Forms).  
4. Transition data into new form.  
5. Train OSD staff on function of new form.  

1. - 2. OSD staff researched current ways disability data was stored and functionality of new form during Fall 2009. Created proposal to OIT staff in Spring 2010 and collaborated during testing and implementation stages.  
3. Confirmed that SGADISA information was compatible with SZROSDN.  
5. Created training materials and trained OSD staff on new procedures in preparation for migration. Disability data was successfully migrated. New forms are active and used by staff.

3. **Collaboration with Stakeholders**-individuals and groups

### 4. Evaluation - process employed to evaluate effectiveness

1. SGADISA is used effectively used by OSD staff
2. Student information is located on one Banner form and is readily available for staff use
3. Disability records have additional level of confidentiality

1. OSD staff is using the new form.
2. Student disability data is now located in one Banner form.
3. OSD has verified with the Banner Security team who should, and should not, have access to SGADISA.

### 5. Use of Results - how plan will/has impacted learning environment of VCC and improvement of the educational programs and/or processes

OSD staff will be able to access student disability information in a more efficient and accurate manner. Offers improvement in the determination of students’ academic and support needs.

OSD have overwhelmingly provided positive feedback on the functionality of the new form.
