

# District Board of Trustees Foundation Report

May 7, 2026

The Valencia College Foundation advances and serves the Valencia College community through partnerships and philanthropy. To accomplish this mission, the Valencia College Foundation has established a Strategic Plan for 2024-2027.

In alignment with the Strategic Plan, the Valencia College Foundation is partnering with CCS Fundraising to conduct a comprehensive business process review of our advancement plan and operational functions. By the end of this engagement, the Valencia College Foundation will have the following.

In addition to the advancement plan and operational functional updates, the business process review yielded a new organizational structure, focused on four distinct portfolios described below.

# STRUCTURE AROUND FOUR FUNCTIONAL AREAS

With the transition of the Resource Development Office into the Foundation's structure, the Foundation has the opportunity to strategically align roles into broader functional areas, eliminating unnecessary bifurcations of responsibilities that are the result of historical divisions and changes. This organizational structure divides the Foundation into four functional areas that interact with a distinct stage of the fundraising cycle.
