TO: THE DISTRICT BOARD OF TRUSTEES OF VALENCIA COLLEGE

FROM: DR.KATHLEEN PLINSKE, PRESIDENT

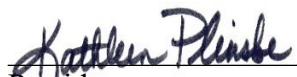

RE: APPROVAL OF ACCESS CONTROL EXPANSION

Valencia College is seeking approval to proceed with a Collegewide access control expansion to enhance the security of facilities across multiple campuses and locations. The project will expand electronic access control to 114 additional door locations across 26 buildings at multiple campus locations. The work includes the installation of new card readers, controllers, associated locking hardware, wiring, programming, and related infrastructure, all of which will be integrated into the College's existing DNA Fusion access control system.

The facilities staff worked directly with the College's contracted vendor, Signature Systems of Florida, to provide the functionality and technical requirements needed by the College. Leveraging the existing College contract awarded on February 26, 2020, Signature Systems' proposal provides a solution that includes, but is not limited to, equipment, infrastructure upgrades, and installation at a cost of \$743,719

RECOMMENDED ACTION:

The President recommends that the District Board of Trustees of Valencia College authorize the College to issue a purchase order to its contracted vendor, Signature Systems of Florida, for the access control expansion at a cost of \$743,719, as presented.

President
