CENTERS FOR TEACHING/LEARNING INNOVATION

A place where faculty learning, collaboration, innovation and scholarship contribute to the greater success of our students, faculty and our community.

The intention of each Campus Center for Teaching/Learning Innovation is to create a hub for collaboration and intellectual inquiry that serves as a catalyst for the expansion of campus-based communities of practice and the advancement of teaching, learning, scholarship and technology.

Ways we engage our faculty:

Scholarly discussions focused on research and evidence-based practices

Consultations that advance reflective teaching practices and development

Ways we engage our faculty:

TEAL Technology-enhanced Active Learning Studio

Develop innovative pedagogical practices and technology applications

Ways we engage our faculty:

Creating a community of learners

Supporting part-time faculty with dedicated spaces

***You're invited to stop by today
and to our Grand-Opening Celebrations
October 3rd 1-3pm and October 4th 4-6pm
in the newly remodeled Center for Teaching/Learning Innovation
Building 6-327***

Thank you for your support of this project!
