

ROADMAP FOR REOPENING

Courses Returning to Campus

In Phase 2, the majority of students and employees will continue to learn and work remotely to reduce population density on our campuses and locations, and provide for the health and safety of our community. Only a limited number of programs and courses, where the curricula can neither be delivered nor assessed remotely, will be offered on-site.

Only staff who are involved in the safety, security, cleaning, and maintenance of facilities and the faculty and staff required to deliver the on-site classes will be working on campus. All other employees will remain in a remote work setting.

Faculty who have a course meeting on-site MAY choose to have some or all of their student engagement hours on-site in the same building where the class is taught, in an effort to avoid opening additional buildings and facilities. Otherwise, student engagement and service to the institution hours will be conducted virtually.

Some courses in the following programs will be offered on our campuses.*

- Accelerated Skills Training
 - Allied Health
 - Arts and Entertainment
 - Biotechnology
 - Continuing Education
- Culinary
 - Engineering
 - Nursing
 - Public Safety
 - YouthBuild
