Subject: Gen Ed Assessment - Social Sciences

Adrienne and Derek - This is just to recap points from our meeting and fill in some gaps. I copy the deans so we are all on the same page.

This year you are piloting Ethical Reasoning and next year Critical Thinking. It is fine and makes sense for you to alternate these on a yearly basis. It is possible to administer the assessments to all students linked to extra credit rather than a sample (Science does not use a sample.) Focusing on Full Term makes sense rather than also including parts of term, the other disciplines do this. You all can let me know which semester you are assessing within and set the timeframe for its launch and close.

Will follow up on the other things we discussed re the current MCQ pilot. Only the Gen Ed disciplines are compiling questions for the Critical Thinking MCQs (not ASL, PE, and Education) Let me know if there are questions related to these items.... expect more soon as we prepare for May.
