

Learning Outcomes: Radiologic & Imaging Sciences

Computed Tomography (CT)

- * Perform entry level skills competently as described by the scope of practice for computed tomography.
- * Perform effective interpersonal, internal, external and written communication skills within the healthcare environment.
- * Effectively analyze resources to encourage growth in the profession.
- * Execute safe clinical decision making in healthcare environment.

Magnetic Resonance Imaging (MRI)

- * Perform entry level skills competently as described by the scope of practice for magnetic resonance imaging.
- * Perform effective interpersonal, internal, external and written communication skills within the healthcare environment.
- * Effectively analyze resources to encourage growth in the profession.
- * Execute safe clinical decision making in healthcare environment.

Quality Management (QM)

- * Perform entry level skills competently as described by the scope of practice for quality assurance.
- * Perform effective interpersonal, internal, external and written communication skills within the healthcare environment.
- * Effectively analyze resources to encourage growth in the profession.
- * Demonstrate leadership skills essential for effective managerial performance.
