This report was pulled from the Data Warehouse using data in Banner. "Department" was used to organize the report. Department is defined using the department code referenced in the Catalog, Recruiting, Admissions, and other modules in Banner. This report reflects the information taken at the time of report creation and reflects the information currently held in Banner. It does not reflect any recent changes to academic programs (degree areas).

Divisions are defined using guidelines provided by Institutional Research and are current as on the time this report was created. The expected response rates shown reflect the number of invitations sent. They were sent to any student enrolled as of the day prior to the launch date shown on the administration calendar (http://tiny.cc/SFI_calendar). This calendar has been determined in accord with faculty decisions about the opening and closing dates of the survey.

Off-campus locations include our dual enrollment courses which are taught in the high schools. The table focused on Delivery Methods shows the responses rates as compared to those from the prior semester for each mode.
