DESCRIPTION: Introduction to calculus with applications to business and social science. Topics include differentiation and integration of algebraic, exponential and logarithmic functions, rates of change, curve sketching, and applications of the derivative and integration. A minimum grade of C is required if MAC 2233 is used to satisfy the Gordon Rule and general education requirements.

PREREQUISITES: Minimum grade of C in MAC 1102 or MAC 1104 or MAC 1105 or appropriate score on an approved assessment.

REQUIRED MATERIALS: Graphing Calculator (TI-83, TI-83 Plus, or TI-83 Silver recommended). Students are NOT permitted to use a calculator that performs symbolic manipulations (such as the TI-89 or TI-92) in this course.

3” × 5” notecards

CALCULATOR: The TI-83/84 will be the modeled demonstrated in class. If a student chooses to use a calculator other than the TI-83/84, he will be responsible for learning how to use his calculator. The student is not permitted to store information or unapproved programs in his calculator. The instructor reserves the right to inspect and/or reset the memory of each student’s calculator. Any student found with inappropriate information stored in the calculator will be subject to action described by the instructor’s policy on academic honesty (see below).

ATTENDANCE: Attendance will be taken at every class meeting. If a student should need to miss class, he should contact the instructor as soon as possible. It is the student’s responsibility to find out what material and assignments were missed due to an absence.

EXAMS: There will be 4 exams. Each exam is worth 17.5% of the final course grade. There will be no make-up exams during the semester unless the absence is excused by college policy (e.g., religious holidays or college sponsored events requiring a student’s attendance). The instructor has the right to ask for documentation to determine whether an absence is excused. If an exam is missed for another legitimate reason (to be determined by the instructor) then the final will be counted twice, as the missed test and the final exam.

Most exams will consist of 2 parts. For this format, calculators will not be permitted on the first part of the exam and will be permitted on the second part.
ATLAS: Students should familiarize themselves with their individual ATLAS accounts. Throughout the semester, the instructor may send e-mail pertaining to the course through the ATLAS system. The student is responsible for checking his ATLAS e-mail account regularly.

HOMEWORK: Homework will be assigned at each class meeting. The student is expected to attempt every problem before coming to class.

QUIZZES: There will be unannounced quizzes throughout the semester. In class quizzes may be given during the first 5 minutes of class. Take-home quizzes will be due 5 minutes after class begins on the due date given at the time of assignment. There will be NO make-up quizzes. If the student arrives late to class or is absent, a grade of zero will be recorded for the quiz.

FINAL EXAM: The final exam is comprehensive and mandatory. A grade of F will be assigned to any student who fails to take the final exam.
