Detailed Guide

Step 1: Logging In

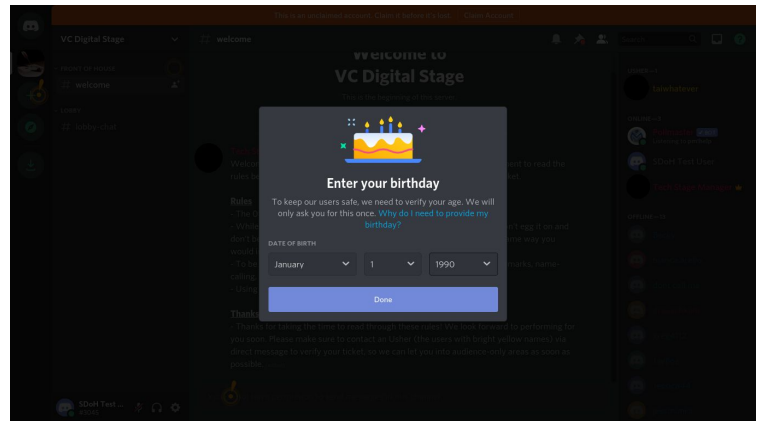

When you click on the link to Discord, you'll be presented with the screen below.

You can put any username you want in this field as long as it isn't offensive.

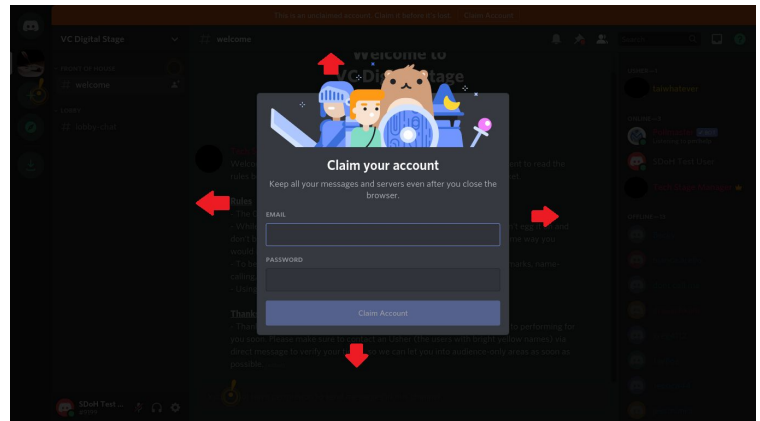

If you try to click "Continue", and nothing happens, that username is likely already taken, so choose a new one.

It will then ask you for your birthday. We won't be doing any data collection, so you can feel free to enter whatever you like in this field. Be aware that Discord does require its users to be at least 13 years old in the US, so act accordingly.

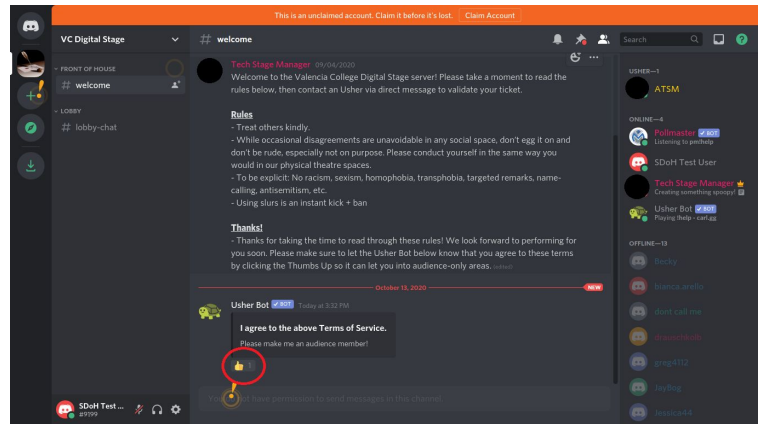

You'll then be presented with an option to claim your account. Unless you're intending to use Discord more in the future, feel free to ignore this and click anywhere on the screen outside the box to dismiss it.
