VALIDATION MECHANISM

The industry certifications serve as the assessment for validating the competencies learned and the award of credit.

AWARD OF CREDIT PROCESS

To receive college credit for the certifications identified, students must meet the following requirements:

1. Apply for admission to Valencia College, declare a major in the Supervision and Management A.S. degree program, and meet the College entrance requirements.
(Note: Students must have a G.E.D. or High School Diploma)
2. Satisfy the requirements for Degree-Seeking Status, including submission of all official transcripts.
3. Complete orientation and comply with the appropriate placement, course prerequisites and requirements of the college.
4. Following enrollment at the College, student must meet with Valencia's Student Success Coach and provide a current and valid copy of the required industry certification(s) listed below.

Required industry certification: (Maximum Award of Credit - 30 credits)

- **Airframe Certification** (15 credits)
Students may receive credit based upon presenting a current and valid copy of the Aviation Mechanic Technician - Airframe Certification from the Federal Aviation Administration (FAA).
 - **Powerplant Certification** (15 credits)
Students may receive credit based upon presenting a current and valid copy of the Aviation Maintenance Technician - Powerplant Certification from the Federal Aviation Administration (FAA).
5. After verifying all of the required documentation that has been submitted, including the approved industry certification(s) above (assessment), the Valencia Career Program Advisor or Program Chair for the aligned program will determine eligibility and notify the Registrar's Office of acceptable credit to be awarded. *(Credit will be awarded after the drop/add date, and the evaluation process has been completed).*
