

SESSION SCHEDULE:
EAST CAMPUS

EXPERIENTIAL LEARNING SESSION 2
2:00 – 4:00

- B1. The Magic of Theater** (This session rotates with Exploring the Physics of Sound)
School of Arts, Entertainment and Design - Theater
Facilitator: John DiDonna
Location: Bldg. 3 Black Box Theater
The Magic of Theater - participants will be guided through creative elements from the upcoming show, "She Kills Monsters."
- B2. Exploring the Physics of Sound** (This session rotates with The Magic of Theater)
School of Arts, Entertainment and Design – Audio Technology and Sound Production
Facilitator: Peter van der Sande and Tom Beaton
Location: Bldg. 3 Black Box Theater
Attendees will delve into the fascinating realm of acoustics, exploring the fundamental principles governing the behavior of sound waves, resonance, and the interaction of sound with different mediums. Through hands-on experiments and theoretical concepts, students will gain a comprehensive understanding of how sound is produced, transmitted, and perceived, enhancing their appreciation for the underlying physics behind the auditory world.
- B3. Script Breakdown Exercise**
School of Arts, Entertainment and Design - Film
Facilitator: Ed Love
Location: SAE Screening Theater
Learn the logistics of motion pictures! The Script Breakdown workshop will introduce the process of analyzing scenes in a screenplay to identify the elements used by other film departments/crew to help create a movie. Elements will include Locations, any special effects, costumes, props, character, sound, and other elements.
- B4. Taking Better Photos on Your Phone** (This session rotates with Fundamentals of Vocal Performance)
School of Arts, Entertainment and Design – Audio Technology and Sound Production
Facilitator: Robert McCaffrey
Location: Bldg. 3, Room 127

An overview of principles of photography and how to access the most common tools on your phone to improve the look of your photos.

B5. Fundamentals of Vocal Performance (This session rotates with Taking Better Photos on Your Phone)

School of Arts, Entertainment and Design – Audio Technology and Sound Production

Facilitator: Alan Gerber & Jon Territo

Location: Bldg. 3, Room 124

Learn the art of vocal improv!

B6. Truck Yeah!

Accelerated Skills Training - CDL

Facilitator: Pete Henkles

Location: Bldg. 14, Room 133

The Day in the Life of a CDL Truck Driver. Come learn what it takes to become a vital part of the supply chain.

B7. Stepping into the World of 3D Printing

School of Computer Science, Engineering, Logistics, and Applied Sciences – Computer Aided Drafting and Design

Facilitator: Irma Berner

Location: Bldg. 6, Room 226

Come learn and see what 3D printing is all about. Watch the multiple applications in industry and education through an interactive presentation.

B8. All Aboard!: A Language & Culture Immersion Experience (Track 1)

Valencia College Global Languages

Facilitator: Holly Bouma

Location: Bldg. 7, Room 123

Join us as we embark on a simulated journey abroad to learn a new language and interact with people from other countries. This immersion experience introduces valuable concepts about cross-cultural awareness and language acquisition.

B9. All Aboard!: A Language & Culture Immersion Experience (Track 2)

Valencia College Global Languages – Continuing Education

Facilitator: Holly Bouma

Location: Bldg. 7, Rooms 125 and 127

Join us as we embark on a simulated journey abroad to learn a new language and interact with people from other countries. This immersion experience introduces valuable concepts about cross-cultural awareness and language acquisition.

B10. Using AI (This session rotates with Starting a Business)

School of Business, Accounting, and Management – Accounting

Facilitator: Cecil Battiste

Location: Bldg. 7, Room 117

Participants will explore how to conduct research using AI (Chat GPT).

B11. Starting a Business (This session rotates with Using AI)
School of Business, Accounting, and Management – Business

Facilitator: Storm Russo

Location: Bldg. 7, Room 113

Participants will explore the 10 steps to start a business based on the Small Business Administration.

SESSION SCHEDULE: **WEST CAMPUS**

EXPERIENTIAL LEARNING SESSION 2 **2:00 – 4:00**

B1. Visual Journaling

School of Arts, Entertainment and Design - Art

Facilitator: Brittany Metz

Location: Bldg. 5, Room 224

The purpose of this workshop is to encourage people to approach journaling creatively, expressing thoughts and feelings does not always have to be in the form of complete sentences or written word. Expressive techniques will be explored and shared through this hands-on workshop. This workshop is designed to encourage alternative ways of expressing especially given everything going on in our world.

B2. Team Building Challenge, Reduce Risk and Maximize Results! (Group 1)

School of Business, Accounting, and Management – Business

Facilitator: Cheri Munley, Jerrid Kalakay and Matthew Kenney

Location: Bldg. 11, Room 106

Participants will be immersed in a team building activity to employ skills such as leadership, teamwork, communication, active listening, strategic decision making, strategic planning, team dynamics and more! Next, participants will learn how to protect personal assets via an active learning exercise, identify the ideal legal structure for their business and explore how entrepreneurs should reduce the likelihood of contract and tort liabilities.

B3. Team Building Challenge, Reduce Risk and Maximize Results! (Group 2)

School of Business, Accounting, and Management – Business

Facilitator: Cheri Munley, Jerrid Kalakay and Matthew Kenney

Location: Bldg. 11, Room 202

Participants will be immersed in a team building activity to employ skills such as leadership, teamwork, communication, active listening, strategic decision making, strategic planning, team dynamics and more! Next, participants will learn how to protect personal assets via an active learning exercise, identify the ideal legal structure for their business and explore how entrepreneurs should reduce the likelihood of contract and tort liabilities.

- B4. Truck Yeah!**
Accelerated Skills Training - CDL
Facilitator: Alan Brodsky
Location: Parking Lot G
The Day in the Life of a CDL Truck Driver. Come learn what it takes to become a vital part of the supply chain.
- B7. Valentine's Heart: 3D Printing** (This is a rotating session with Wood Craft)
School of Computer Science, Engineering, Logistics, and Applied Sciences – Computer Aided Drafting and Design & Construction and Civil Engineering Technology
Facilitator: Tommy Dillen
Location: Bldg. 9, Room 204
3D print a personalized 3D heart – in the 3D Printing Lab!
- B8. Valentine's Heart: Wood Craft** (This is a rotating session with 3D Printing)
School of Computer Science, Engineering, Logistics, and Applied Sciences – Computer Aided Drafting and Design & Construction and Civil Engineering Technology
Facilitator: Andy Ray
Location: Bldg. 7, Room 122
Assemble and personalize a Valentine-themed wood craft item in the new Innovation Woodshop.
- B9. Plant Science** (This is a rotating session with The ELISA Lab Technique)
School of Computer Science, Engineering, Logistics, and Applied Sciences – Plant Science
Facilitator: Javier Garces
Location: Greenhouse behind AHS
Spend some time exploring our on-campus Greenhouse and put your skills to work by planting in the Greenhouse.
- B10. The ELISA Lab Technique** (This is a rotating session with Plant Science)
School of Computer Science, Engineering, Logistics, and Applied Sciences – Plant Science
Facilitator: Susan Ingersoll
Location: HSB, Room 106
Participants will have an opportunity to perform an ELISA (Enzyme-Linked Immunosorbent Assay), a laboratory technique designed to detect and quantify specific proteins within a sample. It works by using antibodies and enzymes to produce a visible signal when a specific protein is present, making it an invaluable tool in fields ranging from medical diagnostics to scientific research.
- B11. ACIREMA: An Interactive Cross-Cultural Simulation**
Valencia College Global Languages – International Student Services
Facilitator: Talia Popovski
Location: Bldg. 6, Room 202
ACIREMA is an interactive experience that helps sensitize participants to some of the stresses and challenges that international students experience when preparing to come to the U.S. to study.

B12. Exploring Health Sciences and Nursing (4 Groups)

School of Health Sciences and Nursing – Nursing, Nutrition, Simulation, & Dental Hygiene

Facilitator: Vicky DeWick, Kristin Bartholomew, Mike Hilliard and Jose Colon

Location: HSB, Room 225/228

Explore a variety of programs in Health Sciences and Nursing, including testing your skills “Nursing Escape Rooms” and jump-starting your healthy lifestyle by obtaining your body fat and BMI to determine healthy goals, learn portion control, and make a nutritious trail mix snack.

SESSION SCHEDULE: **OSCEOLA CAMPUS**

EXPERIENTIAL LEARNING SESSION 2 **2:00 – 4:00**

B1. Living the Scrub Life: A Clinical Medical Assisting Training Experience (3 Groups)

Accelerated Skills Training – AST Medical

Facilitator: Tatiana Laboy

Location: CIT, Room 201 A

Join us at the labs for a unique opportunity to learn important medical clinical skills from our AST Medical Program Instructors. You will have hands-on experience in our cutting-edge medical simulation lab, where you can learn how to take a radial pulse on a patient, explore human anatomy and physiology in 3D with the ZSpace Human Body Atlas, and practice vital skills such as the intake process using our family of adult and infant CAE simulated mannequins. Don't miss out on this chance to enhance your medical skills!

B2. The Future of Advanced Manufacturing in Central Florida - Community Game Changer

Accelerated Skills Training – AST Manufacturing

Facilitator: Carolyn McMorran

Location: CIT, Room 117

Over the past few years, Osceola County has worked with multiple partners to bring semiconductor production to our community. The county has won multiple grants to support this work. Valencia has been a critical partner as the workforce must learn new skills to support this industry. On this tour, you can tour and play in our Robotics Semi Conductor Technician Lab, Precision Optics Lab, Mechatronics Lab and our Assoc of Science degree in Engineering Technology with a specialization in Supply Chain Automation.

B3. Everyone Can Sing! (This is a rotating session with Brainstorming and Logo Sketch Workshop)

School of Arts, Entertainment and Design – Music

Facilitator: James Jones

Location: Bldg. 1 Auditorium

Embark on a joyous singing adventure! Join us for a lively experience filled with laughter, music, and a carefree atmosphere as you explore the sheer joy of singing without any pressure to perfect your skills.

B4. Brainstorming and Logo Sketch Workshop (This is a rotating session with Everyone Can Sing!)

School of Arts, Entertainment and Design –Graphic + Interactive Design

Facilitator: Julio Falu

Location: Bldg. 1, Room 123

Join us for a brainstorming session and logo sketching workshop, similar to how our students are learning these skills.

B5. Fun with Lifesize Action Figures!

School of Health Sciences - Nursing

Facilitator: Pam Piester

Location: Bldg. 3, Room 200

Using our manikins to show how our students learn in a simulated environment on completing head to toe assessments on babies and children.

SESSION SCHEDULE:

**ADVANCED MANUFACTURING
TRAINING CENTER**

EXPERIENTIAL LEARNING SESSION 2

2:00 – 4:00

B1. The World of Welding!

Accelerated Skills Training: Advanced Manufacturing – Welding Technology

Facilitator: Jerel Safford

Location: 1099 Cross Prairie Pkwy, Kissimmee, FL 34744

Come and experience first hand the power and artistry involved in Welding. Participants will have the opportunity to learn the basics of welding from certified Welding instructors.

Course includes a 30 min. safety overview and 1-hour hands-on of welding.

*All participants must wear long pants/jeans (no shorts) closed-toe shoes (boots and long-sleeve shirts are preferred). All PPE will be provided.

B2. Machines Make the World Go Around!

Accelerated Skills Training: Advanced Manufacturing – Automated Production (CNC Machining)

Facilitator: Danny Nunez

Location: 1099 Cross Prairie Pkwy, Kissimmee, FL 34744

Learn about the world of Computer Numeric Control (CNC) Machining and how this process revolutionized Advanced Manufacturing. Our certified instructors will take participants on a journey of how a concept is designed, programmed, and ultimately machined using metal in an automated process. This is a hands-on fun experience for anyone with a natural curiosity about Machining.

*All participants must wear long pants/jeans (no shorts) closed-toe shoes (boots and long-sleeve shirts are preferred). All PPE will be provided.

SESSION SCHEDULE:
DOWNTOWN CAMPUS

EXPERIENTIAL LEARNING SESSION 2
2:00 – 4:00

B1. Cheese Making & Tasting

School of Culinary Arts & Hospitality - Culinary

Facilitator: Chef Todd & Elisa

Location: 500 W Livingston St, Orlando, FL 32801 – Union West VC 536

Learn the art of making homemade traditional artesian cheese and cheese identification.

B2. Chocolate Glazing

School of Culinary Arts & Hospitality – Baking and Pastry

Facilitator: Chef Steven

Location: 500 W Livingston St, Orlando, FL 32801 – Union West VC 530

Learn the art of tempering chocolate, glazing fruit and filling truffles.

B3. Food and Wine Pairing

School of Culinary Arts & Hospitality – Hospitality

Facilitator: Chef Ricarya & Chef Ken

Location: 500 W Livingston St, Orlando, FL 32801 – Union West VC 502

Learn the art of pairing different foods with wine to complement each other.

B4. Ah-ha Moments: Creativity Across Disciplines

Arts, Entertainment, and Design – Fine and Studio Art

Facilitator: Viktoryia McGrath

Location: 500 W Livingston St, Orlando, FL 32801 – Union West VC 507

Is creativity “teachable”? In this workshop, we will discuss pedagogical techniques, thinking skills, and problem-solving strategies by using creativity as a heuristic tool to improve student learning as well as intellectual performance.

SESSION SCHEDULE:
**FIRE RESCUE INSTITUTE
TRAINING FACILITY**

EXPERIENTIAL LEARNING SESSION 2
2:00 – 4:00

B1. Firefighter for a Day

School of Public Service and Legal Studies – Fire Rescue and Training

Facilitator: Tracy Braley

Location: 2966 W Oak Ridge Rd, Orlando, FL 32809

Join us for an exciting afternoon of three experiences related to fire rescue. During your visit to the Fire Training Campus, you will repel down a building, enter a maze for search and rescue, and spray a hose from a pressurized fire engine pump. During this experience, you will think and act like a firefighter. This unique educational experience will leave you with an understanding of the everyday life of a firefighter.

*All participants must wear long pants/jeans (no shorts) closed-toe shoes (boots and long-sleeve shirts are preferred).

SESSION SCHEDULE:
SCHOOL OF PUBLIC SAFETY**EXPERIENTIAL LEARNING SESSION 2**
2:00 – 4:00**B1. CANCELLED Living the Scrub Life: A Clinical Medical Assisting Training****Experience (3 Groups)***Accelerated Skills Training – AST Medical***Facilitator:** Dr. Vicente Quinones**Location:** 8600 Valencia College Ln, Orlando, FL 32825

Join us at the labs for a unique opportunity to learn important medical clinical skills from our AST Medical Program Instructors. You will have hands-on experience in our cutting-edge medical simulation lab, where you can learn how to take a radial pulse on a patient, explore human anatomy and physiology in 3D with the ZSpace Human Body Atlas, and practice vital skills such as the intake process using our family of adult and infant CAE simulated mannequins. Don't miss out on this chance to enhance your medical skills!

B2. Cops & Courts*School of Public Service and Legal Studies – Law Enforcement & Paralegal***Facilitator:** Dr. Jeff Goltz**Location:** 8600 Valencia College Ln, Orlando, FL 32825

Join us for an exciting afternoon of three experiences related to law enforcement and paralegals. During your visit to the School of Public Safety, you will rotate through a tactical experience in our state-of-the-art law enforcement simulator, a live K9 demonstration with our region's finest K9 handlers, and a riveting courtroom experience with our exceptional paralegal team at Valencia. This unique educational experience will leave you with an everlasting impression of these key areas in public service.

SESSION SCHEDULE:

**CENTER FOR ACCELERATED TRAINING
- NORTHWEST ORLANDO**

VALENCIA COLLEGE
**LEARNING
DAY 2024**

**EXPERIENTIAL LEARNING SESSION 2
2:00 – 4:00**

B1. Carpentry Workshop: Building a Cutting Board

Accelerated Skills Training Construction – Carpentry

Facilitator: Mark Hughes

Location: 3437 W.D. Judge Dr, Orlando, FL 32808

Have you always wanted to learn woodworking skills. Join us at our Northwest CAT for a hands-on engaging experience where you will have the opportunity to build your own cutting board. Learn how to work with basic tools and follow all the steps needed to walk away with your very own, handmade cutting board and many more skills that you can apply after this workshop.

B2. Basic Electrical Workshop

Accelerated Skills Training: Construction – Electrical

Facilitator: Mark Hughes

Location: 3437 W.D. Judge Dr, Orlando, FL 32808

Have you ever wanted to update the receptacle in your house to a new modern one that can charge your USB devices? Or do you have an old ceiling fan that needs a facelift? Come learn how to do this and more with our experienced AST instructors. You will learn the proper and safe way to do this and save yourself money in the process.
