

## Active Learning Course Schedule for 2021-2022 PD Year

### LCTS3290: Foundations of Active Learning (10 PD hours - RTV)

This is the first course in the Active Learning Certificate sequence. Throughout the course, participants will be introduced to the theories and principles of Active Learning, as well as gain an introduction to the Capstone portfolio assessment at the end of the certificate process. Specific emphasis will be placed on integrating and sharing active learning strategies into the classroom.

\* This course is required for the Active Learning Certification. It is a prerequisite for LCTS3291 Impacting Active Learning Through Metacognition.

<b>September:</b>	Locator No. 8109	Zoom Session 9/23/21 10AM-12PM, Online work 9/23/21 12:05PM - 9/30/21 9:55AM, Zoom Session 9/30/21 10AM-12PM, Online work 9/30/21 12:05PM - 10/07/21 9:55AM
-------------------	------------------	--

### LCTS3291: Impacting Active Learning through Metacognition (10 PD hours – Online)

Metacognition, the awareness of one's own thought processes, can play a powerful role in what and how we learn. This course will discuss metacognitive awareness and how it can impact learning. Participants will examine how metacognitive strategies can be integrated into active learning activities to support student learning. Participants will also apply metacognitive principles to their own teaching practice.

\* This is a required course in the Active Learning Certification Program. It is a prerequisite for LCTS3292 Active Learning Capstone.

<b>September:</b>	Locator No. 8096	Online Work, Monday, 09/13/2021 - Monday, 10/11/2021
<b>October:</b>	Locator No. 8110	Online Work, Friday, 10/25/2021 - Friday, 11/22/2021
<b>January:</b>	Locator No. 8111	Online Work, Friday, 01/21/2022 - Friday, 02/18/2022
<b>March:</b>	Locator No. 8421	Online Work, Monday, 03/14/2022 - Monday, 04/10/2022

### **LCTS3292: Active Learning Capstone (10 PD hours – Online)**

This capstone course includes showcasing a portfolio of work demonstrating the active learning program outcomes have been met. The portfolio's artifacts will include lesson plans incorporating active learning and metacognitive strategies, a variety of student feedback examples, and self-reflections.

\* This is the final course in the Active Learning Certification. You must successfully complete the following prerequisite courses to be eligible to take this course: LCTS 3290 Foundations of Active Learning; LCTS 3291 Active Learning through Metacognition; at least (6) additional Active Learning Elective PD hours.

<b>September:</b>	Locator No. 8097	Online Work, Monday, 09/20/2021 - Monday, 10/24/2021
<b>January:</b>	Locator No. 8115	Online Work, Monday, 01/24/2022 - Monday, 02/28/2022
<b>March:</b>	Locator No. 8412	Online Work, Monday, 03/14/2022 - Monday, 04/17/2022
<b>May:</b>	Locator No. 8103	Online Work, Monday, 05/09/2022 - Monday, 06/12/2022

### **LCTS2217: Project-based Learning (2 PD hours – Online)**

In project-based learning, students answer a complex, open-ended question or solve an authentic problem through a collaborative process of investigation. Unlike traditional instruction where students are presented with knowledge and given an opportunity to apply that knowledge, project-based learning starts with the end in mind - a product that requires the learning of essential content and skills. In this workshop, faculty will be introduced to the seven characteristics of project-based learning, as well as techniques for managing a project-based learning experience in one's classroom. Workshop participants will draft a driving-question and will begin developing ideas for project-based learning experiences in their disciplines.

\* This is an elective for the Active Learning Certification.

<b>November:</b>	Locator No. 8102	Online Work, Monday, 11/01/2021 - Sunday, 11/07/2021
<b>April:</b>	Locator No. 8159	Online Work, Monday, 04/11/2022 - Sunday, 04/17/2022

### **LCTS3293: Technology Enhanced Active Learning (TEAL) I (2 PD hours – Online)**

Through an immersive technology-enhanced experience, faculty will explore strategies and tools for implementing active learning with technology. Looking at active learning through the lens of Adult Learning Theory, Social Cognitive Theory, and Constructivism, faculty will explore and evaluate specific educational technologies that align to these learning theories to their practice.

\* This is an elective in the Active Learning Certification.

<b>October:</b>	Locator No. 8138	Online Work, Monday, 10/04/2021 - Sunday, 10/17/2021
<b>February:</b>	Locator No. 8139	Online Work, Monday, 02/21/2022 - Sunday, 03/06/2022

## **LCTS3294: Technology Enhanced Active Learning (TEAL) II (8 PD hours – Online)**

Continuing the technology-enhanced active learning experience from TEAL I, participants will build on the concepts that they have begun exploring. In this online course, participants will have the opportunity to review will explore and evaluate specific educational technologies that they could implement in their course(s). Participants will then create a Technology Enhanced Active Learning Activity.

\* This is an elective in the Active Learning Certification.

**October:**       Locator No. 8101       Online Work, Monday, 10/18/2021 - Sunday, 10/31/2021

**March:**         Locator No. 8121       Online Work, Monday, 03/28/2022 - Sunday, 04/10/2022
