Syllable Stress
A stressed syllable has a longer, louder, and higher sound than the other syllables in the word. Syllables with the schwa sound in them are rarely the stressed syllable.

Rule 1. When a two syllable word can be both a verb and a noun or adjective, the verb form is usually stressed on the second syllable, and the noun or adjective form is stressed on the first syllable.
Example.
Everyone in our class is present today. (adjective) PREsent
She gave her friend a lovely present. (noun) PREsent
The students will present their speeches on Monday. (verb) preSENT

Rule 2. Prefixes and Suffixes are not usually stressed
Examples:
Walk+ing WALKing
Un+clear unCLEAR
Thought+ful THOUGHTful
Help+less HELPless
Im+poss+ible imPOSSible

Rule 3. Words with some suffixes are usually stressed on the syllable just before the suffix.
These suffixes include:
Examples
examinAtion techNItion disCUSSion eLECtric
elecTRICity geoLOGical geoGraphy

Identify the stressed syllable
