## Smoking Regulations

---

### **Policy Statement:**

- I. Valencia College (“College”) is committed to providing a safe and healthy environment for its students, employees, and visitors. Extensive scientific evidence confirms a causal relationship between human exposure to secondhand tobacco smoke and human disease and demonstrates that there is no safe level of exposure to environmental tobacco smoke. Accordingly, it is the intent of the District Board of Trustees to promote the health of our students, employees, and visitors by establishing a smoke free College environment.
- II. Smoking is defined as the burning of tobacco or any other type of material in any type of smoking media or equipment, and any object or device intended to simulate such use, including without limitation cigarettes, cigars, pipes, vapor devices, and electronic cigarettes, and using or carrying the same, while emitting smoke/vapor. The scope of this prohibition is not applicable to any non-smoking/non-vapor products intended for use in smoking cessation programs (i.e., medication or nicotine replacement patches, gum, spray, or inhaler). The sale of cigarettes and other tobacco products and the free distribution of tobacco products are prohibited.
- III. Smoking is prohibited on all property and facilities owned, leased, or operated by the College. This includes all buildings, bridges, walkways, sidewalks, parking lots and garages, on-campus streets and driveways, grounds, exterior open spaces, and personal vehicles in these areas. Smoking is also prohibited in all College-owned or leased vehicles, whether or not on College property. Littering the campus with the remains of tobacco products or any other disposable product is prohibited. All College employees, students, visitors, contractors/vendors, and others

are expected to comply with this policy at all times.

- IV. This policy shall not apply to facilities leased or used by the College for college-sponsored events that take place off campus. In these circumstances, the smoking policy of the facility shall be applicable.
- V. The College President or designee is authorized to develop procedures as necessary to implement this policy.
