

Tech Express Articulation to Valencia College A.S. Degree in Digital Media Technology

with [Orange Technical College Modeling Simulation Design Program](#) for up to 9 earned college credits

(Please see Digital Media Technology Program Advisor for A.S. degree and/or technical certificate course scheduling options.)

Criteria for Award of Credit: Students completing an articulated program at Orange Technical College (OTC) can earn Valencia College (VC) credits in the articulated Associate in Science degree by satisfying the following criteria: 1. Prior to graduation, it is recommended that you meet with your campus Tech Express to Valencia advisor; 2. Complete required technical college program at OTC; 3. Complete approved project(s)/certification(s) listed below for award of credit; 4. Enroll and attend Valencia College after technical college graduation. Valencia will award Tech Express credits up to three years after technical college graduation. Beyond three years, exceptions will be considered if students can demonstrate current industry knowledge (e.g., employer letter); 5. Provide documentation required for approved assessment(s) to VC Career Program Advisor or Program Chair for articulated A.S. degree. Upon completion of evaluation process, credit will be awarded after drop/add date.

Course Equivalency in Specialized Courses:

OTC Articulated Program	Assessment for Award of Credit	Articulated VC Course and Credit	Earned Credit Potential	Articulated A.S. Degree
Modeling Simulation Design (1500 Hours)	Provide examples of produced motion graphics and static image slicing/prep for animation using one or more projects.	DIG 2341C Introduction to Motion Graphics (3 credits)	3 credits	Digital Media Technology
	Provide examples of produced 3D motion graphics demonstrating vector/spline modeling, applied materials and textures, the use of virtual lights and cameras, and the ability to use cloning and/or particle systems using one or more projects.	DIG 2302C Introduction to 3-D Motion Graphics (3 credits)	3 credits	
	Provide examples of image correction and image compositing and one or more of the following: 3D asset creation, vector illustration, animated image creation, sliced/interactive image creation using one or more projects.	DIG 2109C Digital Imaging Fundamentals (3 credits)	3 credits
