

How Do I Access New Student Orientation?

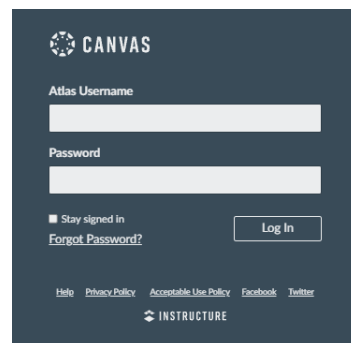

Note: We recommend that you access your Canvas account and complete online orientation using a MAC or PC (Canvas, the Online course delivery system, is not compatible with some mobile devices); Chrome and Firefox are the recommended browsers at Valencia College. Please check your Atlas student email regularly for important updates.

Part I: Pre-Arrival Online Orientation

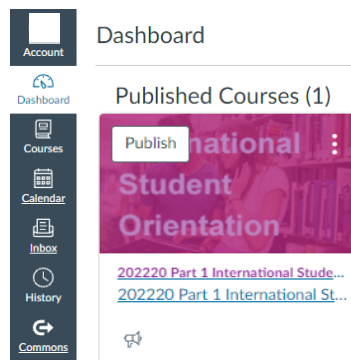

1. Log into your **Valencia Online (Canvas)** from the main Valencia College web-page by clicking the login button found on the top of the homepage.

2. Login with your **Atlas** user information. You should see:

3. Upon logging in you will notice a course tile labeled "*Part 1: International Student Orientation*". Click on the course to launch it. You will receive a grade for each completed section. In order to move on to Part II, you must successfully complete all modules.

Part II: Virtual Zoom Orientation

1. Once you fully complete the Online orientation through Canvas, you will be preregistered to attend one of the mandatory virtual orientation sessions.
2. You will receive an email to your **Atlas** student email with the Zoom meeting details and orientation materials a few days prior to the scheduled session.
3. You will also see details in your **myISS** account.

Feel free to contact us should you need any assistance, issorientation@valenciacollege.edu.
