
PEEL METHOD

P – PREMISE/POINT (the big idea)

E – EVIDENCE (quote or paraphrase)

E – ELABORATE (this is your analysis)

L – LINK (connect this idea to the next idea with a transitional phrase)

You will write 3 sentences, plus a transitional phrase, for each PEEL.

Steps To Make Your Paragraph Using PEEL:

1. Think of 3 big ideas (3 premises).
2. Find a quote (evidence) for each big idea.
3. Assemble your big ideas and quotes together into a paragraph logically.
4. Remember, write an analytic statement (elaboration) further explaining the quotes/evidence.
5. Use a transitional phrase (link) to connect your analysis to the next big idea.
6. Finally, write a main idea and conclusive sentence for your paragraph. In total, you should have written approximately 11 sentences.
