Active Cycle (academic year)**: 2011-2012**
Area: Atlas Information Systems
Person Responsible: Liz Gangemi

	Plan
1. Goal-principal purpose of plan (include how this relates to serving students or increasing student success or supporting LifeMap)	**Research all available options for the replacement or improvement of "My Education Plan" tool in Atlas.**
2. Objectives-what will be accomplished and measured	1. **Provide an Educational Planning tool that will allow long range planning to accommodate the most efficient completion of a student's degree requirements.** 2. **Provide direct interface with Banner Degree Audit and Course Registration with the new tool**
3. Measures and Findings – How specifically measures will be conducted. How will we know the objective has been achieved?	1. **The duplication of the CAPP/Degree Audit system will no longer be needed. We will have one central degree audit system that registration and Educational Planning will share.** 2. **The ability to build an educational plan and register for the course in Banner directly from the educational plan.**
4. Action Plan – what is the implementation plan?	1. **Identify all viable options for either improvement of current MEP or transition to a new system.** 2. **Fully evaluation all benefits and short coming of each option** 3. **Form a committee to participate in project from the inception** 4. **Select best option** 5. **Develop the implementation project plan and timeline** 6. **Execute project plan**
5. Achievement Summary/Analysis- What was learned from the assessment results? What changes will you make in your initiative for the year to come?	**Research was conducted and three alternatives were discovered. Two vendors were brought on campus for the committee to see a demo and discussion (AdAstra & DegeeWorks) I believe the committee will move forward with the DegreeWorks solution, but having a larger group within Student Affairs participate in its evaluation.**
