ROC Course Peer Review Process Overview

Within Tier 2 credentialing, the ROC Course Peer Review process has many pieces working together to ensure your online course gets the most out the review experience. The graphic below highlights key phases of the review process.

Receive the Panel Summary Report and feedback from your Dean, then proceed as needed

Receive "ROC Certified" designation and completion of Tier 2 crediential

ROC Certified

Receive Feedback

The review phase by the Peer Panel and the Dean occurs within the same time frame

Review Phase

Add the Dean to your live CRN so that they can review the 9 designated delivery criteria in the ROC

Add Peer Panel members to your sandbox so that they can review the design & delivery criteria in the ROC

Peer Panel

Dean

Before your course goes through the peer review process, you will have a prep phase with support to get your online course ready for review
